

SB SERIES AERATOR

BUILT FOR RESULTS OVERBUILT TO LAST

Achieve maximum grass production from every acre with the new **SB Series Aerator**. Fracture the hardest soils with the robust design featuring RanchTech Blades® and patented spiral drum in sizes designed to fit your soil type.

The durability instilled into every component of this implement is ready to tackle the toughest jobs. Hydraulic landing gear and multi-ply aircraft tires allows for easy transport even with water filled drums.

The RanchWorx SB Series has a variety of customizations available. An adjustable drawbar allows for pulling of other implements behind the aerator. A broadcast seeder package means perfect seed dispersion behind the aerator to take advantage of the newly opened soils.

THE RANCHTECH BLADE® ADVANTAGE

The new RanchTech blades® have a beveled and tapered edge that sharpens with use. This new forged alloy gives the blades a **14,000+ hectare** lifespan.

The RanchWorx Advantage comes from the wide sharp blades and spiral design. This design allows for the weight of the unit to cut, not tear, the root system. Since the blades are truly no-till, the plants will respond quickly and favorably.

SL SERIES

BUILT FOR RESULTS OVERBUILT TO LAST

The medium duty **SL Series** is the most versatile aerator on the market. It shares many of the same features of the well-known SB Series - great for aeration but also perfect for lite brush clearing and land management.

RanchWorx Aerators utilize new drum diameters to fit a wider range of HP applications, while still utilizing our commercial-grade RanchTech Blades® found on all RanchWorx series aerators.

SR/SR3 SERIES

The **SR/SR3 SERIES** is great for light duty aeration in and around tight spaces and small paddocks/pastures.

Offered in a variety of drum sizes, the SR Series offers the benefits a pull-type aerator. Each aerator includes a heavy-duty hydraulic lift system along with aircraft tires for transport.

Being a 3-PT mount, SR3 Series is a great option for smaller to medium applications. SR3 aerators are designed to fit class I - II - III connections.

THERE IS NO BETTER WAY TO AERATE THAN WITH RANCHTECH BLADES®

SL Series	MIN. HP	KG PER FT.	DRY	W/WATER
2.4m X 76cm SL	40+	340 kg	1,600kg	2,400 kg
3.0m X 76cm SL	50+	330 kg	1,800 kg	2,900 kg
3.7m X 76cm SL	60+	300 kg	2,000 kg	3,400 kg
2.4m X 91cm SL	50+	420 kg	1,800 kg	3,000 kg
3.0m X 91cm SL	60+	400 kg	2,000 kg	3,600 kg
3.7m X 91cm SL	70+	390 kg	2,300 kg	4,300 kg

All widths are measured from outside to outside of implement, drum width approx. 30 cm less, weights approx. Prices and specifications are subject to change. Tractor horse powers are suggested ranges and vary according to soil conditions and topography.

SR/SR3 Series	MIN. HP	KG PER FT.	DRY	W/WATER
